Introduction

Product Tiered Pricing is an Odoo App which will provide better shopping experience to your customers. You can facilitate your customers to view the price lists of the products as per the quantity of the product in the product detail page. This app will also make your customers aware about the price difference of the product if purchased in bulk quantity. Along with these you can manage and set the pricelists directly from the Odoo backend as per the Odoo Pricelists configurations.

Benefits of Product Tiered Pricing

- Customers will be able to view the tiered price for the products in the product details page.
- Customers will be benefited more as product tiered pricing will make them aware about the product price variations.
- Better Customer Satisfaction
- More user friendly shopping experience

Prerequisites

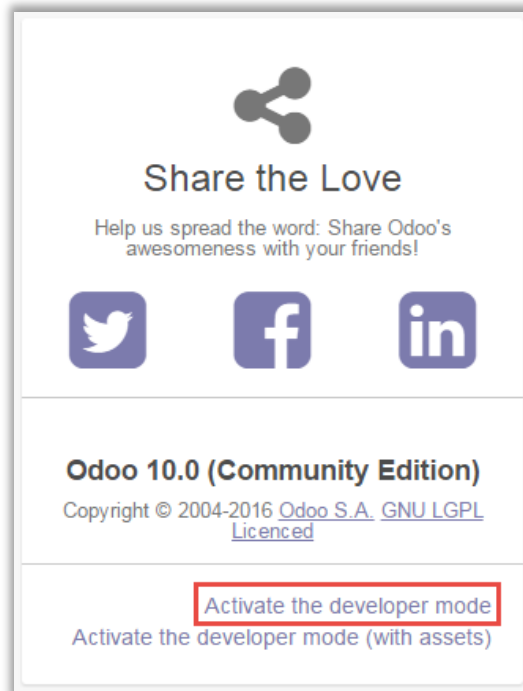

Following points must be followed before starting the plug in installation:

- You should login as an Admin in Odoo.
- Check that your Odoo Instance is compatible for Product Tiered Pricing. An e-commerce module should be present in your instance to use this app.

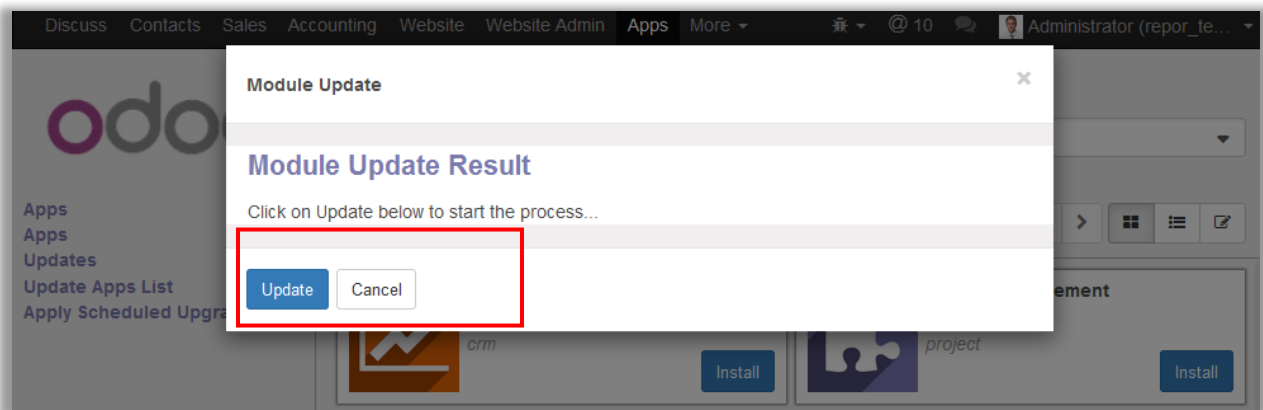

Installation & Configuration

Installation Steps

- Download & Unzip Product Tiered Pricing App Folder
- Move Product Tiered Pricing folder to your Odoo 10 setup path
Ex. /home/detai/odoo_demo/odoo/addons
- Open your Odoo 10 copy in any browser.
- Database selection:
 - **For New database**
 - Click on manage databases
 - Click on **'Create'** database (new database)
 - Enter database name, email & password for new database.
 - Click on **'Continue'** button
 - **For existing database**
 - Select existing database. Use default created db: "test_db_theme"
- Login with the admin credentials.
- To activate Developer Mode Go To **Settings -> Activate the developer mode**. Click on **'Activate the developer mode'** and developer mode will be activated.

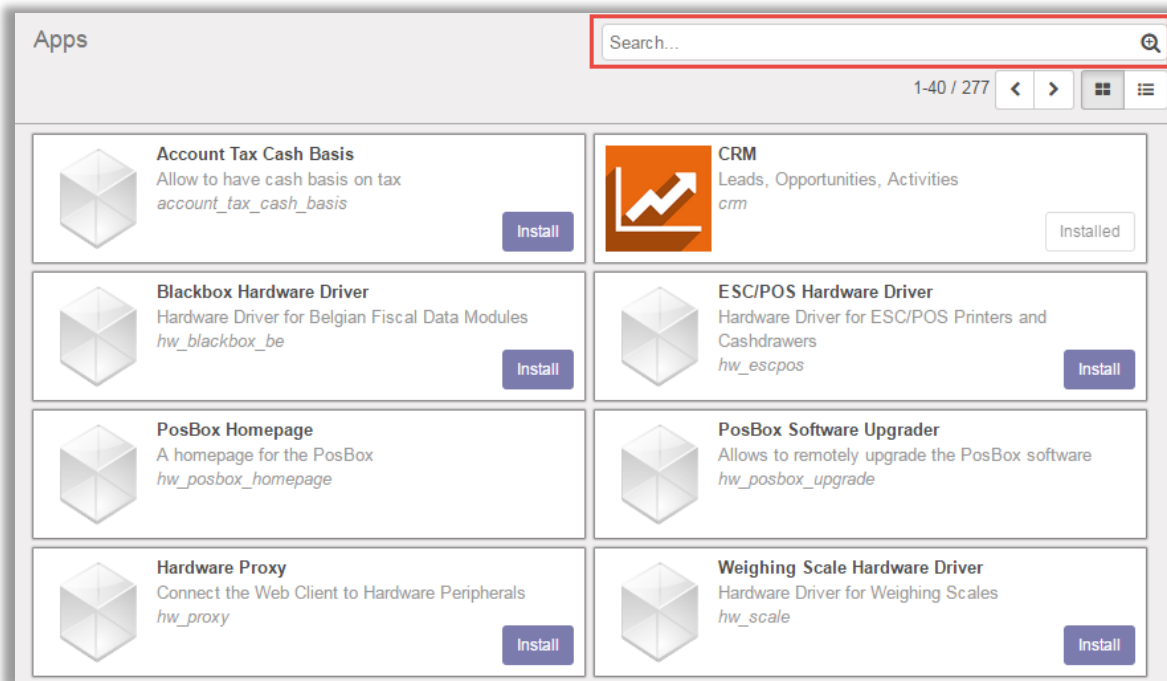

- Go to Apps/Update Module List.
 - Click on **'Update'** button.

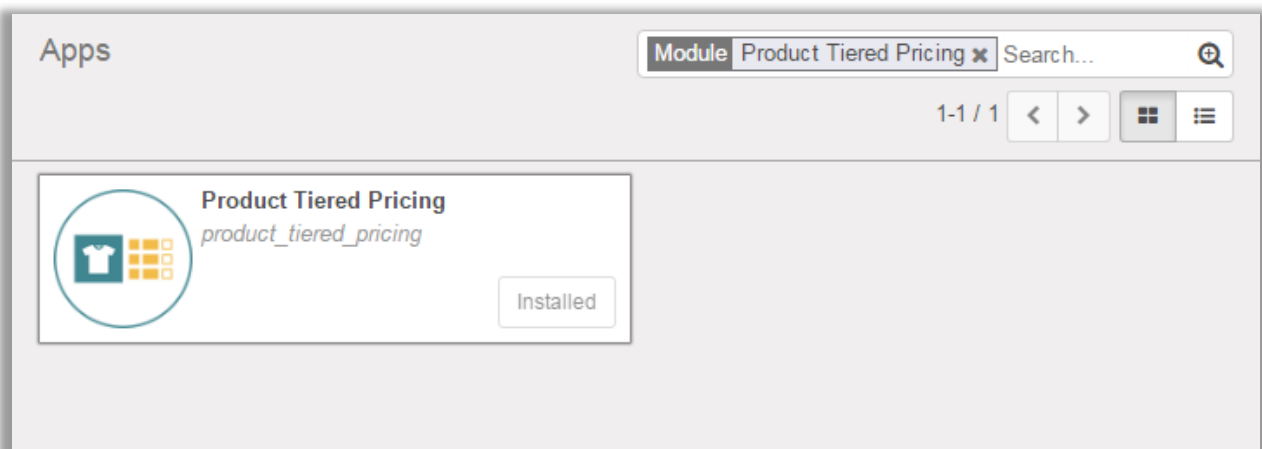

USER MANUAL – Product Tiered Pricing

- Go to Apps/Apps Modules
 - Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write “Product Tiered Pricing”.
- Click on ‘Install’ button.

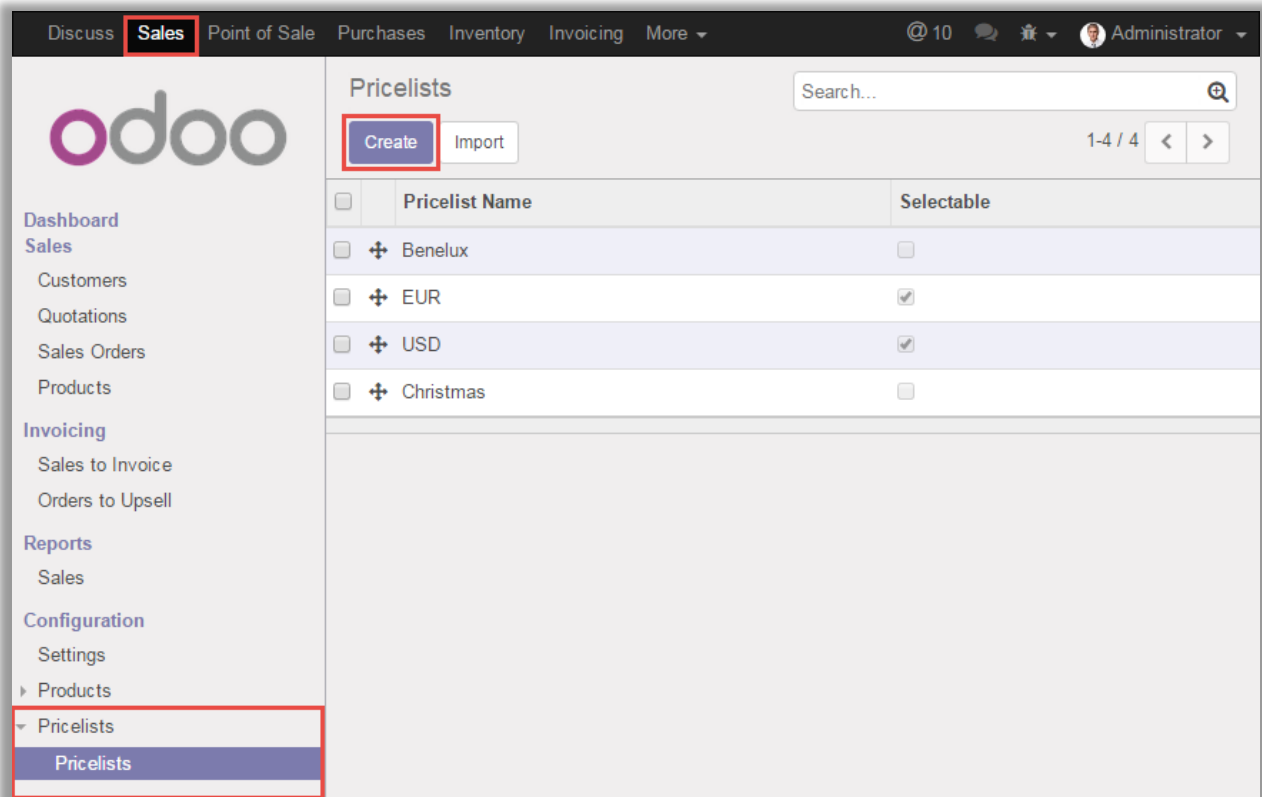

- You are ready to go with Product Tiered Pricing App Module.

App Configuration

Create / Set Pricelists

- Go to **Sales -> Configuration -> Pricelists** and click on **'Pricelists'**.

- By clicking on '**Pricelists**' link you will be redirected to the Pricelists page. Now you can create or set the already existing pricelists as per the Odoo Pricelists default configurations.

Pricelist Items

Applicable On	Min. Quantity	Start Date	End Date	Price
Computer Case	1,000			30.0 % discount
Computer Case	100			20.0 % discount
Computer Case	10			10.0 % discount and 0.0 surcharge
iPad Retina Display	1			20.0 % discount and 0.0 surcharge
All Products	1			0.0 % discount and 0.0 surcharge
All Products	1			0.0 % discount and 0.0 surcharge

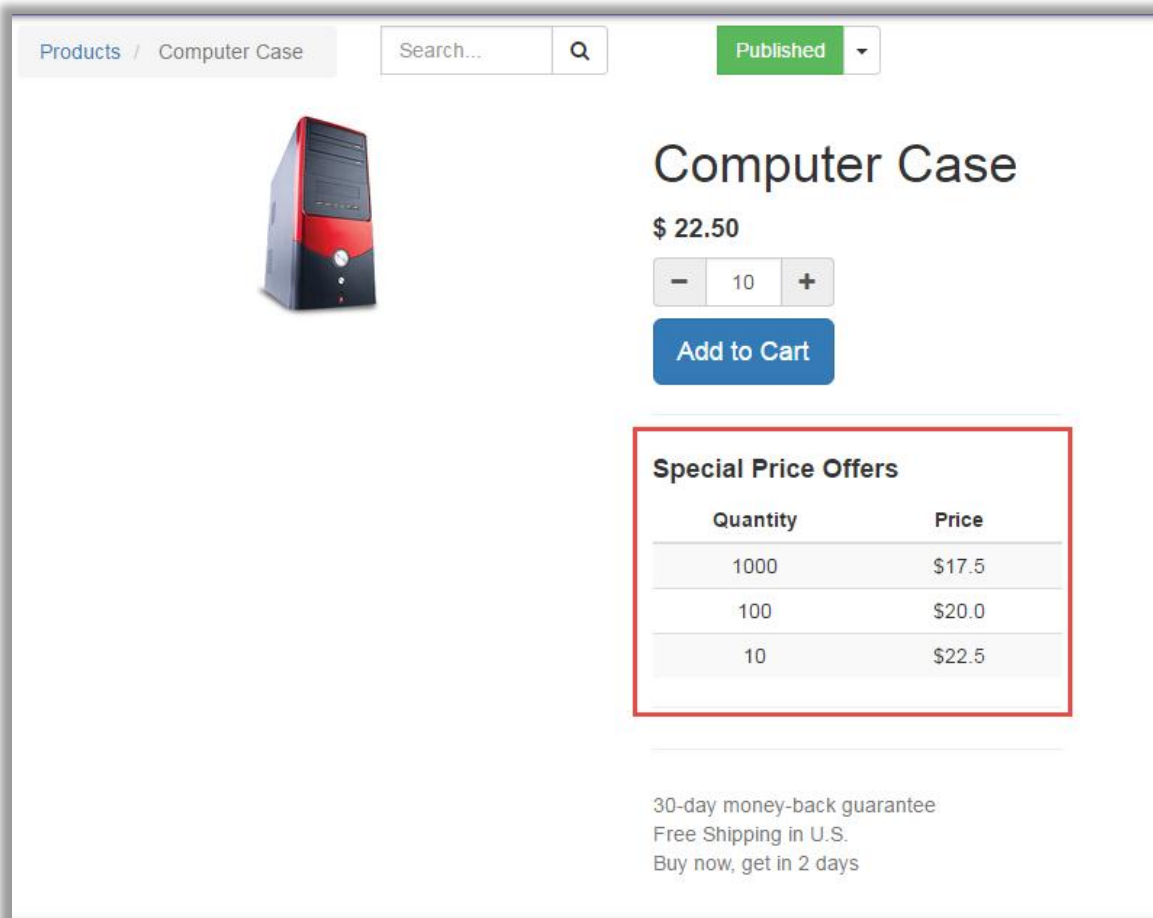

Enable / Disable Product Tiered Pricing:

- To Enable / Disable the Product Tiered Pricing for the store admin should navigate to **Website -> Product Details Page**.
- Thereafter click on '**Customize**' button and enable the '**Product Tiered Pricing**' from Products section.

Pricelist in Product Details Page

- Once the pricelist is configured from the Odoo backend by the admin, tiered pricing of the product as per the pricelists can be viewed in the main website on the product details page of the products included in the pricelist.

The screenshot shows a product details page for 'Computer Case'. The page includes a breadcrumb trail 'Products / Computer Case', a search bar, and a 'Published' status indicator. A red and black computer case is displayed on the left. The product name 'Computer Case' is shown in large text, followed by the price '\$ 22.50'. Below the price is a quantity selector with minus, 10, and plus buttons, and an 'Add to Cart' button. A table titled 'Special Price Offers' is highlighted with a red border, showing three tiers of pricing. Below the table, there are three lines of text: '30-day money-back guarantee', 'Free Shipping in U.S.', and 'Buy now, get in 2 days'.

Quantity	Price
1000	\$17.5
100	\$20.0
10	\$22.5

Note: Tiered Price: Tiered price is usually used for bulk product orders. Generally the price of products will decrease based on the quantity slabs defined by the admin in the backend.
